

Welcome to Aarhus

Prepared Conference January 2014

CEO Lars Schrøder, Aarhus Water

The second-largest city in Denmark

320.000 citizens (Jan 1, 2012)

Strong population growth (about 1 % per year)

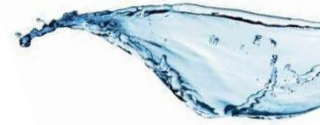

Denmark's youngest city considering the average age of its habitants - far lower than anywhere else in the country.

Aarhus is a part of the larger East Jutland metropolitan area with 1,200,000 inhabitants.

East Jutland is the second most-populated area in Denmark, after the Copenhagen area.

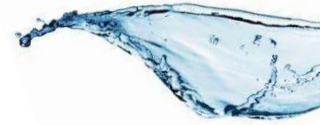

Mission of Aarhus Water

The purpose of the company is to supply drinking water and provide wastewater treatment of high quality in terms of health and the environment, while taking into account reliable supplies, nature and efficient operation in a manner that is transparent for consumers.

Prepared - City/Utility partners

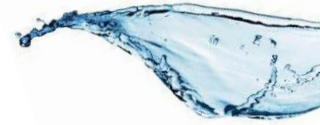

- Aarhus**
- Barcelona**
- Berlin**
- Eindhoven**
- Genoa**
- Gliwice**
- Istanbul**
- Lisbon**
- Lyon**
- Melbourne**
- Oslo**
- Seattle**
- Simferopol**
- Wales**
- Denmark**
- Spain**
- Germany**
- The Netherlands**
- Italy**
- Poland**
- Turkey**
- Portugal**
- France**
- Australia**
- Norway**
- US**
- Crimea**
- United Kingdom**

Expected outcome using combined RTC of WWTP and sewersystem

- Bathing Water in Lake Brabrand (hygienic)
- Improved water quality/partly Bathing Water in River Aarhus
- Bathing Water in the Harbour (hygienic)
